Technical Data Information

Product name: **Graffiti Perspex Cleaner** - non-flammable, low odour, non-hazing

Product Description:

ADCOAT Graffiti Perspex cleaner is recommended to use to remove marking pens and various spray paints from perspex and polycarbonate materials. This product is a blend of mild solvents and special surfactants to clean without hazing or softening the surface.

Graffiti Perspex Cleaner is applied to affected areas with a soft bristle brush or dry cloth and a gentle rubbing action.

The area is then wiped with a clean, dry soft cloth to remove the cleaner and graffiti.

Graffiti Perspex Cleaner can be left in contact with the Perspex and polycarbonates for an extended time without softening the surface and leaving a mark or hazing like other solvent based products.

The statements above are compiled from our field of production and according to the latest technological developments and application techniques. Since application and working are beyond our control, no liability of the producer can be derived from the contents of this information sheet.
